ONE-WEEK ONLINE ORIENTATION PROGRAM ON ISLAMIC COUNSELING AND PSYCHOTHERAPY

Venue: Institute of Objective Studies, Aligarh

Islamic Counselling is an integrated therapeutic intervention which is based on the Quran, hadith, Islamic practices (Sunnah) and cultivation of Islamic values. Islamic counselling is about the consciousness, awareness of God by the means of the counselling process. Islamic counselling is based on an integrated framework guided by the principles of Islamic belief and practices. Through religious practices like prayer, recitation of the Holy Quran, forgiveness, repentance (taubah), faith, pilgrimage and spiritual support we can cultivate strength and can improve our mental well-being. Thus, understanding in a new way is the need of the hour as it is a means by which people with stereotypical perspective about counselling can actually receive help without having their concerns come in way. Islamic counselling has emphasized upon the core aspects of Islamic teaching that will help an individual to better adapt himself to the demands of the situation and better prepare himself for the affairs of this world and the hereafter.

Benefits to the Participants

- The program will benefit to the participants in understanding the basic counselling process in the context of Islamic Psychology.
- Skill Development
- Academic progression with multi-phasic benefits to counselors.
