Trade Balance = Exports - Imports

Fig 1 shows that in value terms, imports have remained more than exports during 2013-14 to 2018-19. The imports increased in 2014-15 than exports as compared to 2013-14 but during 2015-16 and 2016-17 the difference in imports and exports reduced. During next two years (2017-18 and 2018-19), the difference between imports and exports has increased again.
